

How to Assemble a Story Board (A4) Classroom Reader

Instead of constructing a book you can simply print each page of the reader onto card. Then, simply hold up each card as you tell the story.

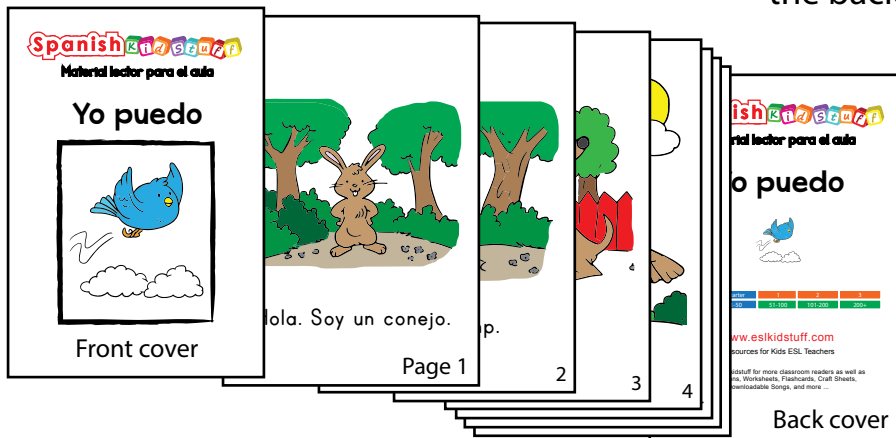

Step 1:

Load your printer with A4 size card. Print out the pages of the reader.

Step 2:

Stack the pages in order with the front cover at the front and the back cover at the back.

Step 3:

Hold up each card in turn as you tell the story.
